Detailed Action

Allowable Subject Matter

Claims 1 and 3-20 are allowed.

The following is an examiner's statement of reasons for allowance: No prior arts could be found (alone or in combination) to teach all the claim limitations. In particular, no prior arts could be found to support the use of FEC redundancy in combination with iSCSI in a manner such that a stored relationship between transmission partners and an FEC redundancy is utilized. Hence, the FEC redundancy is applied based on the relationship of the nodes transferring the data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
